S ELECTED by

JORDAN CARLYLE

This is what I am loving at the moment. What is floating around in the design air lately is metallics, color and texture! Design is so exciting these days and only keeps getting better. For those who love to entertain be sure to check out the cool angular glassware from Nouvel Studio as well as chic metallic rimmed Kiva Platters by Rablab. Stayed tuned for what's next from Carlyle's Must Haves.

Low-back M'Comme chair, \$7,000
